

## **2022 Voters' Guide**

**Compiled each year as a public service by the League of Women Voters of Darien.**

Vote Tuesday, November 8 -- Democracy is not a spectator sport!

The League of Women Voters (LWV) is a nonpartisan, non-profit organization that encourages the informed and active participation of all citizens in the process of government. The LWV of Darien is a local group of both men and women who strive to improve the quality of democracy by increasing voters' knowledge of candidates and issues. Visit [lwvdarien.org](http://lwvdarien.org) to learn more.

The Voters' Guide is designed to provide information about the candidates to the public in a nonpartisan and balanced way to assist them in casting an informed vote on Election Day.

Questionnaires were submitted to candidates for local offices, asking one or more office related questions. Responses were limited to a specific word count and are printed exactly as submitted by the candidates. For every ballot position, a voter may write in the name of someone who is not listed as a candidate on a separate line at the bottom of the ballot for "Write-In Votes." In the State of Connecticut for those votes to be counted, the individual whose name is being written in, must have registered with the Secretary of State. Write-in candidates for the RTM must register with the Town Clerk no later than the last business day preceding the election.

(\*) Signifies that the candidate is an incumbent.

Note: All offices appear in the order in which they appear on the ballot.

## Candidates for Board of Education

**Vote for Any Two**  
**11/08/2022 – 11/04/2025**

### **Questions:**

*1. What motivated you to be a candidate for the Board of Education and what special skills do you bring to this position?*

*2. How are you committed to ensure that our children receive the best education for the world that we live in today?*

*3. Describe what an ideal public education looks like to you.*  
300 words in total

**\*D. Jill McCammon Republican Party** 8 Rings End Road

No response received.

**\*John R. Sini, JR Republican Party** 36 Birch Road

No response received.

**Kadiatu M. Lublin** Petitioning Candidate 24 Maplewood Drive

1. I have volunteered extensively with Darien Public Schools for many years, serving as an elementary PTO Co-Chair, working with parent representatives from all seven schools as the CDSP Special Education Committee Chair, and as a member of the Ox Ridge Building Committee. Additionally, I worked as a substitute teacher for DPS when the pandemic created a serious shortage of substitutes. As part of serving in these volunteer roles, I have been attending Board of Ed meetings regularly for over five years. I have also worked with numerous stakeholders of diverse skill sets in all of these positions. Having the background knowledge of what concerns our schools face, combined with the experience and willingness to actively listen and engage with the community, will aid me in being able to get work for our students on day one.
2. My goal as a member of Darien's Board of Education would be simple: put students first. If we listen to what students are telling us, if we acknowledge honestly the challenges they face and the ways in which the world is changing, we will be in a much better place to make decisions on their behalf.
3. All humans, not just children, must feel safe to learn. This goes far beyond physical safety as a sole measure. We must strive to preserve and inspire the natural creativity and curiosity of children. We must also create space for them to make mistakes and develop accountability. Creating a positive school climate where these aspects can flourish is

incumbent on Board of Education members and DPS administrators. Our classroom teachers are one of the most vital resources we have; they must feel valued and supported to be able to establish the relationships necessary for children to feel supported and ultimately, succeed.

### **Representative Town Meeting**

The Representative Town Meeting is determined annually by elector apportionment and cannot exceed 100 members. Legislative powers for the town are vested in this body. Members serve two-year terms, do not get compensated and are not elected based on party affiliation. Its responsibilities include passing laws and ordinances, appropriating money and approving collective bargaining contracts involving town employees.

Ballots will vary depending on the voting district. There may be write-in candidates in some of the districts, but you must ask at your polling location. Write-in candidates must receive a minimum of 25 votes to serve on the RTM.

Attendance records for RTM members are provided for your information at the end of the RTM question response section. RTM incumbents are noted with a \*.

**Please note the polling location of your District.**

#### **Question:**

*What are the three most important issues facing our town?*

150 word limit

#### **District 1**

**Poll Location: 35 Leroy Avenue**

*Vote for up to seven*

#### **\*Priscilla Wong 59 Saint Nicholas Road**

The three most important issues facing our town for the next few years start with 1) prioritizing spending and investing wisely as changes in the world affect the economy. A considered, well-researched approach is necessary so that 2) our school system sustains its high-quality services, for all types of learners, equally from buildings and grounds to curriculum to teacher compensation. 3) Protecting residents from climate events, such as flooding and storm damage is a discussion around infrastructure and again, budget is crucial here to have the resources to mitigate future damage. Wise planning, including protecting and acquiring open space, is another component of infrastructure.

### **Gregory Grambling 11 Blueberry Lane**

- 1) There is too much politics involved in Darien's education system, from its BOE members, to administration and faculty that is making its way into the classroom to the detriment of our children.
- 2) Rising wealth in Darien has only increased the target on our back from the state of CT / Hartford.
- 3) An undermining of common community values driven by social media and an over dependence on "smart" phones. This has resulted in an increase in anxiety, depression and inability to resolve differences, as well as a lack of ownership / responsibility that is deflected to devices, in particular amongst young community members.

### **\*Sarah M. Baldwin 17 Maywood Road**

No response received.

### **Patrick Parr 11 Point O Woods Road South**

I believe the three most important issues facing our town today are:

- 1) **Schools** - making sure they have the funding and structures in place to remain "best in class" and are properly addressing all of the needs of our students – academically, socially (including extracurriculars) and in emerging areas like mental health;
- 2) **Development** – with so many large projects underway or proposed, it is critical to ensure that all new development is chosen and designed to be additive to the lifestyle we value and help maintain and enhance the character of the town that we love; and
- 3) **Parks and Recreation** – the proposed Great Island purchase follows the recent Highland Farm acquisition from Ox Ridge – both large but potentially hugely beneficial to town residents. Planning and executing on these and future projects impacts the town for generations and needs to be done thoughtfully and with great care.

### **\*Cassie Mecsery 29 Indian Spring Trail**

The town issues of most concern to me are; The current development of Darien's downtown, education initiatives and enhancements of our school system, and protection of open space and parks.

Darien's handling of student health and well-being, is of specific concern. I am interested in further developing the policies and programs implemented by our schools over the last few years. My personal goal would be to continue to grow in my role on the Education committee of the RTM, thereby contributing in a small but meaningful way.

**\*Diane G. Conologue 216 Leroy Avenue**

The three most important issues facing the town are:

1. Maintaining local control
2. Using our tax dollars wisely
3. Safety

The state has attempted to interfere in schools and in planning and zoning issues. We must strive to maintain local control and keep abreast of what is happening in Hartford.

We must make sure our tax dollars are used wisely in preserving the excellence of our schools and in providing services our constituents expect, such as flood mitigation. We must preserve and enhance our parks, beaches and open spaces.

We must ensure that our citizens are safe in our neighborhoods, our schools and while traveling on our roads. With the new buildings in town, we will shortly have an influx of new residents. We may have the need for expanded services on the parts of the police and volunteer fire departments.

**District 2**  
**Poll Location: Town Hall**  
*Vote for up to eleven*

**\*Barbara L. Thorne 37 Dickinson Road**

Three issues that I believe need to be considered:

One - maintain community spirit as new growth occurs that is positive, cooperative, and inclusive.

Two - fiscal responsibility- consider both long term and short term implications of decisions

Three - public safety - support professionals in police, schools, mental health with respect and resources

Discourse and discussion will profit from fresh new ideas PLUS the stability from knowledge and institutional history

I offer experience as a 50 year resident of Darien -

Schools - time at DHS and teacher and counselor

Town government - time on Board of Selectmen, Park&Rec, RTM

**\*Penelope Wilson 44 Andrews Drive**

I am honored to serve the residents of Darien as a District 2 Representative on the RTM. Given that Darien is currently undergoing some seismic shifts with its expansion and appearance,

special care needs to be taken regarding managing growth in ways congruent with Darien's size and overall quality of life. Additionally, environmental impacts of climate change continue to be a top focus, and crucial given impacts of flooding felt throughout all parts of Town. Continued efforts to protect our fragile coastal community, including making good common sense decisions around expansion and environmental realities, remain a top priority. Finally, continuing to strongly fund programs which help the town's most vulnerable citizens, both young and old, are of highest priority to me.

**\*Cheryl Russell 18 Fitch Avenue**

Local control, maintaining our parks and flooding are three important issues facing Darien.

We must retain local control and withstand directives from Hartford. We need to continue writing our own Planning and Zoning Regulations so we achieve what is best for our town.

Flooding continues to be an issue. The town needs to address it more effectively by working with those who have experienced flooding in the past. We must carefully look at building applications and deny any which might cause over building in wet land areas and near rivers and streams.

As a member of the Park and Recreation Committee and Pear Tree Point Beach Building Committee, I feel we should continue to improve our parks, beaches and open spaces making them user friendly at a cost tax payers can afford.

**\*Petr Marousek 219 Old Kings Highway South**

We need a town that fulfills its most important responsibilities to all taxpayers, especially in these times when several new multifamily developments will soon welcome a thousand new Darienites to our community. At the same time, town's indebtedness will have almost *tripled(!)* after four elementary school rebuilds/upgrades AND assuming the purchase of the Great Island closes - resulting in an unfavorable step change to our local taxes.

Therefore, it is critical not to lose focus going forward on what has historically made Darien the best small community in the lower Fairfield County, namely continue to (1) efficiently provide basic town services, including maintenance of roads and infrastructure, (2) keep investing in our best-in-state public school system, and (3) ensure safety and security of our residents, including, most importantly, of ALL Darien students; while limiting tax burden growth proportionately **ONLY** to increases in wealth as measured by the Grand List.

**\*Michael C. Wheeler 8 Tory Hole Road**

Three most important issues facing Darien?

1. Controlling costs in an inflationary period. It will require some tough "no's" at budget time.
2. With the success of the building of the Public Works Garage, Cafeteria and OxRidge, our committees have done an excellent job of building quality facilities tied to fiscal

responsibility; the HHR committee must be given any assistance it might need to continue that tradition.

3. Understanding and addressing the mental health issues of our youth.

**\*Clara C. Sartori 161 Old Kings Highway South**

In the years ahead Darien will be challenged to maintain the Town's small-town atmosphere as it works to provide services and facilities to meet the expectations of a new generation of residents.

The well-being of all families and individuals of all ages will be the focus of many Town initiatives. Darien town government leaders will be expected to:

- expand security, emergency preparedness, flood prevention and sustainability in all buildings and grounds, including school properties.
- improve and increase services and recreation areas, including continued acquisition of open space.
- consider and oversee a wider range of local housing opportunity, while avoiding over development.

Ideally, Town officials, including the RTM will listen to constituents and collaborate as they strive to blend experience with new ideas. Working to balance these initiatives with a reasonable tax rate will continue to be a priority.

**\*Charles Teschner Jr. 5 Tokeneke Trail**

No response received.

**\*Michael A.P. Casolo 29 Contentment Island Road**

No response received.

**\*Katie Vanovitch 118 Hecker Avenue**

Three important issues impacting our town:

- Infrastructure improvement: continue to address the town's flooding issues; address safety issues that will arise with all the new developments around town which will bring increased traffic, such as sidewalk installation, improved intersection safety, crosswalks.
- Mental health: The mental health of our community is extremely important. We need to provide the resources our students need in the schools to thrive, as well as address the isolation issues of our seniors caused by the pandemic.
- Educators: Darien is known, year after year, for the best schools in the state. We must ensure our educators feel supported – without the retention of excellent teachers, our schools will not continue to excel.

**\*Emily T. Salmore 3 Berry Lane**

No response received.

**District 3**  
**Poll Location: Noroton Heights Fire Department**  
*Vote for up to seven*

**\*Edward A. Washecka 7 Leeuwarden Lane**

Three most important issues in the town --

- 1) Maintaining the quality of the school system
- 2) Keeping tax increases below 3% per year
- 3) Ensuring "something" happens with the ~~construction-junkyard~~ Palmers property in 2023

**\*Jack H. Davis 197 Hoyt Street**

Balance. Balance. Balance. Balance maintaining our schools, town infrastructure and innovation. Fiscal balance between short-term and long-term needs. Balance in maintaining civility whilst being collaborative yet challenging to new initiatives and spending. With the purchase of Great Island and the proposed hiring of additional full-time staff for both the Town and Board of Education during a time of high inflation, there needs to be a balance between necessary investment and understanding that not all taxpayers can afford significant real estate tax increases. As Chair of the RTM Finance & Budget Committee, we have led the clean up of Reserve Funds; facilitated the change of financing fire engines; addressed the capital accounts returning significant funds back to the taxpayers whilst continuing to support innovation, infrastructure maintenance and our children's educational experience. If elected, I will continue to find balance for all taxpayers as well as support our children's educational experience.

**\*Jeffrey Crouse 33 Crooked Mile Road**

No response received.

**Sara A. Hesli 3 Briar Brae Road**

No response received.

**\*Liane Zielinski 28 Oakshade Avenue**

The biggest issue I feel facing Darien is the mental health crisis affecting our students. The tragic suicides of last spring brought the issue to the forefront. Sadly, mental illness has been an issue in town for several years. I have seen what depression and anxiety can do to children, adolescents, and families. To help our town face these challenges as well as deal with our collective grief, I feel strongly that we need to support our schools, particularly our teachers, who often are on the front lines with students in crisis. As a town, we need

to come together, show compassion to one another, and provide the resources that are so needed.

**District 4**  
**Poll Location: Hindley School**  
*Vote for up to six*

**\*Brian J. Rayhill 6 Pleasant Street**

As Chair of District IV for the past 11 years, I have focused on meaningful RTM involvement by our District IV members and accountability to our constituency. Being educated on Town of Darien issues, both present and future, is one of the main reasons for my participation in the RTM. Moving forward, I am eager to see the RTM continue to promote our Senior Programs/Resources, including our beautiful Senior Center. I also support the upkeep and development of our Town and Board of Education playing fields that serve our youth so well. Another impactful RTM issue is the opportunity to work with both our Town and State to identify and implement traffic improvement programs, (including the ongoing Noroton Avenue/West Avenue lane widening project, potential Ledge Road lane expansion, and maintenance of our pedestrian sidewalks).

**\*Kimberlee Kiner 2620 Boston Post Road**

No response received.

**\*Rolf C. Obin 9 Archer Lane**

The Hanson Road Bridge failure heightens the importance of maintaining and where necessary, replacing public works infrastructure. Along with other bridge repairs, the Town of Darien (TOD) is conducting studies of flood prone areas. We need to implement current and future infrastructure maintenance, repair, and replacement. The Town's recovery effort from the pandemic, particularly with concern to the mental health condition of town residents, should remain with continued crisis intervention assistance and referral support.

Municipal autonomy is under scrutiny; recent TOD Planning and Zoning initiatives have been launched to retain town autonomy i.e. Affordable Housing Plan, street parking regulations and accessory apartment regulations. The TOD must maintain vigil to State Legislature initiatives that would weaken or remove TOD autonomy. Representative Town Meeting membership means to stay informed, address problems and support voting action(s) to assist in our navigation back to prosperity, health, safety, and autonomy.

**\*Nicholas N. Branca 14 Shipway Road**

No response received.

### **Elizabeth Keller 4 By Road**

Education: Proper and rigorous education in our schools. Traditional curriculum focused on core subjects so that our children are competitive on the world stage. Parents involvement in curriculum oversight.

Keeping our town growing but making certain the density of new projects doesn't turn our small special town into cities.

Making improvements to Pear Tree Beach. Taking better care of the facility and building without adding on but renovating the interior and exterior as well as bathrooms and snack bar.

### **\*Werner Domittner 25 Nearwater Lane**

1. Great Island and Impact on Mill Rate: The purchase led to a substantial increase in town debt obligations and a higher mill rate. The challenge is to develop use plans that benefit all our residents and will not result in further mill rate increases from project financing as well as increased operating cost. I believe we should set up Great Island as a separate entity from the town with the request to become self-financing.

2. Building Projects: We have four big building projects e.g., Darien Commons Housing, Corbin District, Noroton Heights Shopping Center as well as the school renovation projects for Hindley, Holmes, and Royle now that Tokeneke has been finished. They all will significantly change the face of our town.

3. Taxes: We must start differentiating between tax spending needs and wants and properly balance town infrastructure and education spending with being fiscally responsible and keeping taxes low.

### **\*Meghana Bhat 2110 Post Road**

No response received.

### **\*Jan Raymond 11 Waverly Road**

I am Jan Raymond and I live at 11 Waverly Road in District 4. I serve on the Education Committee.

I previously served on the Board of Education and on the Board of The School of Education at Syracuse University. I want to continue working on the issues that confront our schools and our town.

Living near the water I have experienced both salt water and fresh water flooding. I am aware of the importance of the ongoing conversations on this issue. I chaired the Darien Housing Authority when we proactively made decisions that prevented and remediated flooding.

None of us can put aside the larger environmental concerns facing all of us. The health and welfare of our students and the larger community depend on the actions and votes we take on the RTM.

I ask for and hope I have deserved your vote.

**District 5**  
**Poll Location: Town Hall**  
*Vote for up to eleven*

**\*David F. Bayne 5 Windsor Road**

The most important issues facing Darien arise from the financial strain placed on the town by the acquisition and future development of Great Island. The RTM authorized \$100+ million to purchase the property, and it is likely that much more will be needed to: (a) create public access out of the single lane road to and from the island, (b) address the existing structures on the property, (c) create sufficient parking for the public, and, finally, (d) for whatever development will be required for the recreational purposes to which the island will be dedicated.

Meanwhile the normal operating and capital costs of the town and our schools will not abate. So, how will Darien balance the demands of Great Island against the other demands of the town and schools? Those answers to those three issues remain unclear, and it will be the RTM's job to press for them.

**\*Alyssa A. Mahoney 71 Greenleaf Avenue**

Like many of you, my family to move to Darien for the advantages it offered to our children, most notably the incredible public school education. Therefore, one of our most important tasks should be to ensure that education remains a priority and our educators have the resources and support that they need.

As a shoreline community, one of our priorities also needs to be adequately addressing drainage and flooding issues as we face rising water levels, increased storms and increased rainfall as the result of the rapidly changing climate.

Finally, fiscal responsibility is always of the utmost importance. Ensuring that we are able to allocate the funds necessary for ongoing capital improvements to maintain our beautiful town without having to raise taxes.

It has been a privilege to represent my neighbors in district 5 on the RTM this past year and I hope to have the opportunity to continue.

**\*Harry D. McLachlin 54 Edgerton Street**

No response received.

**\*Mark R. Adiletta 69 Holly Lane**

No response received.

**Beth Pope 261 Hollow Tree Ridge Road**

No response received.

**\*Curtis A. Butler 137 Hollow Tree Ridge Road Apt 1813**

My focus as a member of the RTM continues to center around:

- 1) Our schools and the education budget
- 2) Quality of life in the town, including our parks, new development and zoning
- 3) Health and safety, particularly for our students and seniors

I look forward to continuing to serve the town as a member of the RTM.

**\*Ian M. Laird 56 Edgerton Street**

No response received.

**District 6**  
**Poll Location: Mather Center (Town Hall)**  
*Vote for up to eight*

**\*Allison Costanzo 31 Littlebrook Road**

No response received.

**\*Michael L. Kadish 13 Darien Close**

No response received.

**\*David York 40 Fairview Avenue**

No response received.

**\*Frank Adelman 3 Harriet Lane East**

I'm grateful for the opportunity to continue serving Darien and the voters of District 6 for an eighth term. As always, Darien and its citizens have abundant natural, financial, municipal, educational and human resources. These must be carefully conserved, only deploying Town assets and staff – and the time of our many generous volunteers – against truly worthwhile projects that provide long-lasting benefit. Current critical issues include: 1) protecting and supporting the mental health of our students in town, 2) promoting the high performance of our

schools across measures of academics, athletics, equity and opportunity, for students in all grades and at all levels and abilities, and 3) as always, ensuring that Town business is conducted transparently and openly, particularly (at this time) with respect to the potential financial albatross of the anticipated Great Island acquisition, with its ill-defined purpose and the opaque agenda for the property.

**Daniel J. Manghirmalani 38 Rocaton Road**

The most important issue facing Darien, in my view, is balancing the cost of town services and property taxes. The basic question that should be asked for each incremental dollar spent is: does this enhance the quality of life for Darien residents by more, the same or less as the amount spent? Rising property taxes may put on a damper on home price appreciation, and it is in this light that spending should be carefully evaluated.

Maintaining top ranked schools is another priority. The question should be asked: what are higher ranked school districts in the tristate area doing that Darien isn't? This doesn't necessarily mean spending more money. Preserving a low crime rate is also very important.

People in the northeast move to Florida. Can we create an environment where the reverse happens?

**\*Sandra S. Conway 21 Fairmead Road**

No response received.

**Rachel B. Taylor 93 West Avenue**

No response received.

**\*Susan R. Lauritzen 59 Hale Lane**

I have lived in Darien for over 20 years. I've served on the RTM for the past 7 years, currently on the Planning and Zoning committee and prior on Parks and Recreation committee. I have an MBA from Yale in finance. Three important issues I see currently facing Darien are:

- 1) A priority is ensuring the superior quality of education and safety in our schools, while maintaining a fiscally responsible budget.
- 2) Second, flood mitigation should be a top priority, while taking appropriate action to update our town infrastructure as needed.
- 3) A third area of concern is managing our town budget effectively to keep taxes low.

I hope to continue serving District 6.

**John J. Visi 25 Littlebrook Road**

The three most important issues facing the Town of Darien are 1) decisions on proposed usage of acquired open land and the associated expenses required to support those proposals, 2) maintaining the proper town government structure, town volunteer resources, and financial dollars to support the continued town residential and business growth, and 3) providing the optimum educational facilities and learning support for the families that are moving into and returning to Darien to raise their children.

I am seeking membership in RTM District 6. I believe my town work experience, my professional background and education, my experience as a Viet Nam Veteran, and my appreciation of Darien and what it has meant to my family, will all allow me to be a productive member of the RTM District 6 team. I served my country, my state, and my town, and now I would like to serve my community.
